DETAILED ACTION

1. This action is responsive to the application, corrected application papers filed on 12/31/2003, and 11/8/2005 respectively.

2. Claims 1-30 are pending in the case. Claims 1, 6, 13, 16, 21, and 28 are independent claims.

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-5, 13-20, and 28-300, are drawn to the creation of a list of URL lists, classified in class 715, subclass 513, and 760.

Group II. Claims 6-12, and 21-27, drawn to obtaining metadata from a media file, classified in class 715, subclasses 500.1, 501.1, and 707/100, 102.

The inventions are distinct, each from the other because of the following reasons:

4. Inventions I, and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I is concerned with the creation of list of URLs. Whereas, invention II has separate utility such as the association of content with a media file using extracted metadata. See M.P.E.P. 806.05(d).

Art Unit: 2178

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because the inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, search for Group II is not required Group I.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
